

Objective

Use the various resources available on UltimateGuitar.com

Procedures

1. Use the search window to search by artist or song title.
2. You will find results that are user-submitted. This means that all the chords and tabs within the free version are not official. There may be errors in the lyrics and chords. The rating system is usually a good indicator for the accuracy of a submission. Songs with lots of high reviews are often very accurate.
3. If you want, change the key of the song by using the Transpose +1 and -1 buttons.
4. Adjust the font using the Font -1 and +1 buttons.
5. Change the chord icons to the correct instrument, guitar, ukulele, or piano.
6. Use Autoscroll to have the page slowly scroll on its own while you play
